ONLY !**

Diana Litmanovich, MD, FNASCI

Associate Professor of Radiology, Harvard Medical School
Chief, Cardiothoracic Imaging Section
Medical Director, CT LCS Program, LungHealth
Director, Cardiac CT, Cardiothoracic Fellowship
Radiology, BIDMC
Boston, MA

Tuesday, April 4th, 2023

6 pm. (EST)

“Imaging Pulmonary Edema – Deciphering the Enigma”

Objectives:

1. To become familiar with various, common and uncommon, etiologies of pulmonary edema.
2. To review common and unique imaging features of various types of pulmonary edema.
3. To discuss imaging features associated with pulmonary edema that might influence prognosis and treatment options.

“Imaging of Airways in Hemoptysis with the Emphasis on Airway Malignancies”

Date: Wednesday, April 5th, 2023
Time: 7:30 am. (EST)

Objectives:

1. To review common endobronchial etiologies of hemoptysis.
2. To review common and distinct imaging features of endobronchial causes of hemoptysis, especially benign vs. malignant.
3. To review unique imaging protocols designed to diagnoses endobronchial causes of hemoptysis.

“Aortitis and Thoracic Large Cell Vasculitis – What Could the Radiologist Bring to the Table”

Date: Wednesday, April 5th, 2023
Time: 12:00 pm. (EST)

Objectives:

1. To review common and rare causes of thoracic large cell vasculitis.
2. To review appropriate imaging modalities and common distinct imaging features of thoracic large cell vasculitis.
3. To review the role of imaging in diagnosis, prognosis and treatment monitoring of thoracic large cell vasculitis.
